> For the Oil & Gas market, Smart solutions always by your side

BERNARD CONTROLS is pleased to participate for the 4th consecutive year in the well-known Abu Dhabi International Petroleum Exhibition and Conference. There, we look forward every year to meeting all our partners and the key actors, with whom we experience together the current changes and challenges occurring in the Oil & Gas sector.

Be present at ADIPEC means being able to grasp our customers' needs more precisely to offer smart appropriate solutions.

«Smart solutions always by your side» is a commitment for close support and dedicated services in this moving market situation. It emerges from the combination of tangible economic solutions and focus on customer satisfaction.

Indeed, BERNARD CONTROLS relies on more than 75 years of expertise to offer competitive tailor made solutions in the field of electric actuation and controls. Under the BC PREMIUM label, the STX and SQX ranges of explosion proof actuators are reliable and certified electric

actuation solutions inspired by customers' requirements and return on experience. Many options are available for enhanced security & reliability, such as SIL Certification, or for increased user-friendliness, such as compatibility with main fieldbus protocols (Profibus DP, Modbus, Foundation Fieldbus, HART and others on demand).

Come to share with us your needs, we offer leading edge technology and Strong Customer Support!
