

## BERNARD CONTROLS CONFIRM ITS ENGAGEMENT TOWARDS THE ISO 9001 CERTIFICATION!

BERNARD CONTROLS put in place almost 20 years ago (1997) a Quality Management System, conform to ISO 9001 certification. After having proceeded to an audit, which took place the 14<sup>th</sup> of April 2016, the AFNOR organism renewed this certification and delivered a very positive feedback to BERNARD CONTROLS by identifying notably fifteen high points in the list of criteria reported\*. Among the latter, three of them could be mentioned, namely; the conception and development's scheduling, the supervision and measure of processes, the scheduling of product manufacturing and purchase processes.

As a reminder, the ISO 9001 certification describes the main requirements for the setup of a Management Quality System within companies willing to constantly provide compliant and faithful goods and services and furthermore improve customer's satisfaction.

This is perfectly compatible with BERNARD CONTROLS's engagement to keeps on improving its quality and customer's satisfaction at each step of the firm's lifetime. A relevant representation of this client-side orientation could be given by the Strong Customer Support: Our Experts support you at each step of your projects, from the design phase, or during setup and commissioning, during retrofitting and maintenance, during training sessions. Therefore, the renewal of the ISO 9001 certification testifies our ambitious goals when it comes to Quality Management.

*\*Elements of the management system where BERNARD CONTROLS either overtook principal requirements of the audit, or where it distinguishes itself by implementing a satisfying/innovative habit, method or technical performance.*
