## Bernard Controls Ltd now registered in the UK

**Bernard Controls Ltd** was registered as a UK legal entity at the beginning of 2018. This creates an opportunity for the company to have a greater UK presence, employ local personnel and enjoy the benefits that BVAA membership brings. The UK facility will focus on developing relationships directly with Valve OEMs and Traders specifically relating to Project opportunities.

We will continue to build and develop strong relationship with Zoedale as our long standing partner in the UK. They will be supported by the UK organisation and continue to represent all BERNARD Controls products exactly as before.
